

# Donation Guidelines

Thanks to our partnership with Westside Baby and other donors, we are able to provide baby equipment and supplies to Open Arms families. To help us serve each family with dignity, we ask for donations to be in a condition you would be proud to provide for a baby or family you know and love.

To help us maintain this standard, please ensure donated items are **clean**, **functional**, and **up to date**.

If you have any questions about your donation, please reach out to our Operations Coordinator – Stephanie Quinn.
