

Thanks to our partnership with Westside Baby and other donors, we are able to provide baby equipment and supplies to Open Arms families. To help us serve each family with dignity, we ask for donations to be in a condition you would be proud to give to a baby or family you know and love.

To help us maintain this standard, please ensure donated items are **clean, functional, and up to date.**

To arrange a donation drop-off or if you have donation questions, please reach out to our Operations Coordinator – Stephanie Quinn.
